

VALLITE™ GRADER BLADES

- **VALLITE™ MOTOR GRADER EDGES** are manufactured from heat treated thru-hardened steel that gives maximum abrasion resistance and edge strength.
- Designed to do your normal jobs plus stand up in unusually tough conditions - where ordinary edges break, mushroom or wear out prematurely.
- Selecting the correct blade application is important and that's why VALLITE™ Motor Grader Blades are available in three basic designs - Flat, Curved and Serrated.

VALLITE™ GRADER BLADES (CURVED DOUBLE BEVEL)

- 6" width available in 5/8", and 3/4" thickness.
- 8" width available in 5/8", 3/4", and 1" thickness.
- Lengths - available in various lengths, hole spacings and bevels. (usually in standard lengths 4', 5', 6', 7', and 8').
- Hole sizes available to accomodate 5/8", and 3/4" plow bolts.

VALLITE™ GRADER BLADES (FLAT DOUBLE BEVEL)

- 8" width available in 5/8", 3/4", and 1" thickness.
- 10" width available in 1", 1-3/8", and 1-5/8" thickness.
- Lengths - available in various lengths, hole spacings and bevels. (usually in standard lengths 4', 5', 6', 7', and 8').
- Hole sizes available to accomodate 5/8", and 3/4" plow bolts.

"ALL VALLITE PRODUCTS ARE GUARANTEED AGAINST BREAKAGE"
