Statement**

**GALVANIZED CORRUGATED STEEL PIPE**

The **raw material** for galvanized corrugated steel pipe used for pipe production is certified in accordance with the following standards and is domestic in origin:

|             |   |
|-------------|---|
| AASHTO M218 | Steel Sheet, Zinc-Coated (Galvanized), for Corrugated Steel Pipe                                |
| ASTM A929   | Specification for Steel Sheet, Metallic-Coated by the Hot-Dip Process for Corrugated Steel Pipe |

**Pipe production** of ALT2 CSP is in accordance with the following standards:

|            |   |
|------------|---|
| AASHTO M36 | Corrugated Steel Pipe, Metallic-Coated, for Sewers and Drains                           |
| ASTM A760  | Standard Specification for Corrugated Steel Pipe, Metallic-Coated for Sewers and Drains |

**CERTIFICATION**

All galvanized corrugated steel pipe products with the St. Regis Culvert, Inc logo and the ASTM marking are manufactured, tested and supplied in accordance with the above-described standards and specifications.

St. Regis Culvert, Inc ensures, certifies and documents that galvanized corrugated steel pipe shipped to the job site meets the above standards through the implementation of a quality control program, and thereby warrants the product is free of any material or workmanship defects.
